Volume - 5

Issue - 3

Year-2018

CONTENTS

Original Article:

Study of serum protein and electrophoretic pattern in pulmonary tuberculosis patients 353-360

Suhasini Padugupati, K. Kiran Kumar, L. Vasantha, D.V.H.S. Sarma

Status of high sensitive C- reactive protein (hs-CRP) in NAFLD obese type-2 diabetic subjects 361-364

Sanjeev Kumar Singh, Dharmveer Sharma, Nivedita Singh, Raj Kumar, Pavan Gautam

Serum uric acid levels in pregnancy induced hypertension preeclampsia 365-368

Ajay Kumar Singh, Raj Kumar, Vinay Kumar Singh, Saurabh Srivastava, Ashish Sharma

A study comparing values of serum sodium estimated by colorimetric kit method with those obtained by direct and indirect ion selective electrode methods 369-374

Kusuma K S, Vasudha K C, Vanitha Gowda M N, Radhika K

Comparison of dye-based proteinuria estimation methods with immunoturbidimetric microalbuminuria estimation, in screening for diabetic 375-378

Lalithambigai Arumugasamy

Null:

Insight into the exocrine pancreatic function (serum amylase and lipase) in type 2 diabetes mellitus 379-382

Manjula K. S., Reena R, Usha S.M.R., Priyadarshini K.S., H.V. Shetty

Original Article:

Frequency of ABO blood group and Rhesus factor (D) in patients of type 2 diabetes mellitus attending tertiary care teaching hospital of South India 383-385

Shrimanjunath Sankanagoudar, Shivanand Mali

Association between urine albumin creatinine ratio and high sensitivity C-reactive protein in patients with type 2 diabetes mellitus 386-391

Sujesh Kumar N, Sajitha Krishnan

Serum osteocalcin: A potential biomarker for primary osteoporosis 392-396

Mayur Rai, Tirthal Rai, Srinidhi Rai, Janice D'Sa, Parinita K

Study of dyselectrolytemia in patients with multiple myeloma 397-400

Madanika P, Malathi M, Ramlingareddy

Early clinical exposure to enhance the learning of biochemistry in first year M.B.B.S students 401-405

Amandeep Kaur, Sahiba Kukreja, Tejinder Singh, Mandeep Kaur

Study of serum ferritin levels as an inflammatory marker and its relationship with Hba1c in type 2 diabetes mellitus 406-410

Prithvi Shankar, Balaji K.

Effect of occupational lead exposure on the family members of lead based industrial workers 411-414

Raviraja A, Vishal Babu G N, Deepak K. S, Thuppil Venkatesh

Comparative study of glycoproteins in normal individuals and in patients with hypothyroidism and hyperthyroidism 415-418

N. Muninathan, P. Mohanalakshmi

Study of serum calcidiol level in pregnancy and its association with fetal outcome 419-422

Suman Kumari Pandey, Hari Shankar Pandey, Vinita Kalra

A comparative study of blood glucose level measurement between glucometer and semi autoanalyser 423-426

N.V. Lakshmi, P. Kiranmai

Comparative study of serum electrolyte levels between uncomplicated and complicated (Severe) malarial patients 427-430

Ummed Singh Solanki, Rumana Khan

Dendritic cells and vitamin D in dry eye disease 431-434

Balakrishnan .M, K. Sumathi, Pinky Karam, Rajarathinam

Role of serum lipoprotein (a) in type 2 diabetes mellitus and its association with glycemic control 435-440

Kavitha MM, JG Ambekar, Nilima Dongre, Kashinakunti SV

Study of serum zinc level in overt and subclinical hypothyroidism - A case control study 441-444

Mahantesh B. Bhutal, Sangappa V. K, Shankarprasad D. S

Biochemical markers for early senescence of erythrocyte membrane in type 2 diabetes mellitus 445-448

Asfia Afreen, Dinesh Javarappa

Establishment of reference range for thyroid hormones (T3, T4 & TSH) in adult female population at clinical biochemistry laboratory of GCS medical college & hospital- A descriptive study 449-452

Prashant M Jadav, Ramesh Pradhan

Study of free radicals (malondialdehyde) in pre-eclampsia and eclampsia in correlation with uric acid and total proteins 453-457

R. Kathyaini, T. Aruna Kumari

Association of high sensitivity C - reactive protein (hs-CRP) with unstable angina: An alarm for vulnerable plaques in CAD patients 458-463

Deepali Vidhate, James Thomas, Becky Thomas, Simran Dhadiala, Arpit Murarka

Utilization of laboratory services and perspective of lab practices among clinicians: A cross sectional study 464-466

Shilpa H.D, Amrut Arvindrao Dambal, Sulekha. B.

Preanalytical variables and its impact on total quality management of clinical biochemistry laboratory- A tertiary referral rural hospital study 467-472

Munilakshmi. U, Shashidhar K.N, Susanna T.Y

Relationship between ischemia modified albumin and lipid profile in type 2 diabetes mellitus 473-476

Priya Patil, Shruthi Rai P

Dealing with seasonal pseudohypokalemia in paediatric patients due to high ambient temperature in tropical climate: A laboratory perspective 477-482

Sucharita Mohanty, Alpana Mishra

Effectiveness of computerized ordering of test using unique hospital identification number to reduce pre analytical errors - a cross sectional study in a tertiary care hospital of south India 483-486

Jessy Sumangala Janardhanan, Smitha Kalarikkal Satheesan

Study of emergency laboratory parameters in acute organophosphorus poisoning in a rural population- retrospective study 487-492

Chandana G, Kavita P Rasalkar, Gajjehalli Saikiran Reddy, Vijitha Thinakaran

Effect of elevated iron stores on lipid profile in patients of type 2 diabetes mellitus 493-496

Amit Kumar Maheshwari, Hardik Javia, Dinesh Sharma, Darshan Patel

Case Report:

A case of inaugural hyperosmolar diabetic coma reported from Côte d'Ivoire 497-500

DERE Kwadjo A. L, Kouame Andre B, KOFFI Konan G., MANHAN Kahissié, TIAHOU G. George

Manuscript Peer-Review Process

Manuscript Peer-Review Process is a web-based portal that can be accessed 24*7 under good internet connection. It is a set of editorial services that allows a user to run a journal efficiently. It includes journal pre-publication services, editorial workflow & post publication services. We provide a high level of flexibility, so you can select the services you need and integrate your existing workflow. It allows smooth flow of all publication functions of an editorial office on a single independent platform, no software installation is required, only requires Username, Password to login in different panels.

MPRP manages all the authors, reviewers, editors' details and its integration with the social and professional network. It is inhouse product of **Innovative Publication Pvt. Ltd.** which is managed and operated by Innovative Publication and currently running with around 50+ Journals.

Why MPRP?

If your research is ready to share with world, our submission portal will help you with a user-friendly platform to submit your
